

We believe at Superior that the power of one is expanded by the strengths of many. Part of our goal at Superior Dental Health is to have a positive impact on the community we serve. To us that means using our resources to help make a difference locally.

Each quarter in addition to our team-wide contribution to our selected charity, we select one team member and support their favorite charity through donation and promotion.

**Team Member:** Ashley Stine - **Charity of Choice and why you selected/what it mean to you:** Pawsitive Impact Project.

I selected this charity because the love and bond between families and their pets is a very strong one and noone should have to surrender a loved one due to financial difficulty.

**A bit more about this awesome charity:**

This program serves local Lincoln families and senior citizens who are low or fixed income or experiencing short term financial issues. They offer discounted or free things to help people care for their pets such as vaccines, food, toys, grooming items, dishes, collars and leashes. Owning a pet adds cost to a household that some can't afford and I would be heartbroken if I could no longer give basic things to my dogs.

Google Pawsitive ~~and~~ Impact Project to learn more. Ways to help include donations, dropping off items pets need or volunteering your time.

to the point of no longer being able to keep them. Some one dog or cat could be the only thing getting them through hard times.

Thanks ☺
